PROFILE

Computer Science student at the University of Mississippi pursuing a minor in Marketing. Skilled in web development technologies including HTML, CSS, JavaScript, PHP, MySQL, and Java, with a passion for creating user-friendly and engaging web applications. I am eager to apply my programming knowledge, problem-solving skills, and creativity through software development or IT internship opportunities. I have also taken an interest in Law as well.

PROJECTS

****To-Do List Web Application** | HTML, CSS, JavaScript**

- Built a web-based To-Do List app with add, delete, and check task functionality
- Practiced front-end development and user interface design

****Travel Guide** | HTML, PHP, SQL, CSS, JavaScript**

- Built a web-based travel guide. You look for the country you are interested in and it gives you recommendations for food, housing, attractions, transportation and the best time to travel
- Practiced front-end development and user interface design
- It can add, delete, and update
- CSCI 375 - Introduction to Database Systems

****A1 Auto Fleet (Current Project)** | Marketing**

- Created social media content to increase brand awareness and support marketing efforts. I am also in charge of the sales and creating the website.

****Personal Portfolio** | HTML, CSS**

- Built an online portfolio where you can see a quick summary of my resume
- Practiced front-end development and user interface design
- <https://niaydah.github.io/>
